

DUAL-SEAL INSULATED GLASS
LIMITED WARRANTY

GGI Glass Distributors Corp. warrants to our original purchasing customer only for a period of ten (10) years after the date of manufacturing that the dual-seal insulating glass units will not develop material obstructions of vision on the internal glass surfaces resulting from dust or film formation caused by failure of the seal due to faulty manufacturing by GGI.

This warranty is effective only if installation is handled in accordance with our specific instructions and does not cover any defects resulting from improper usage or handling, glass breakage, faulty building construction or design, immersion of the insulating glass in water, glazing systems without a water build up weep system, abnormal stress due to heat or load application, sloped glazing, installation into refrigeration or heating compartments, saunas, steam rooms, swimming pool areas, units made with muntin grid bars, any applied films or any items inserted within the unit, units over 60 square feet, units manufactured with customer supplied materials, units made with any type of plastic or acrylic materials, units with any specifications other than guidelines set forth by Glass Association of North America (GANA).

If insulated glass fails to comply with the terms of the above warranty, GGI will replace the defective unit at no charge, FOB Secaucus, NJ or, at its option, refund the purchase price of the defective insulating glass. The liabilities of GGI are limited solely and exclusively to replacement as set forth herein alone and do not include any liability for any incidental, consequential or other damages of any kind whatsoever, whether any claim is based upon theories of contract, negligence or tort and, without any limitation, does not include any shipping charges, installation and/or labor costs or any other losses or expenses related to or associated with the inspection, removal or replacement of the insulating glass unit. Any replacement unit will be warranted for the balance of the original ten (10)-year period.

Cleaning Instructions: Warm water and soap with a non-abrasive brush.

It is the sole responsibility of the purchaser to remove all protective packaging, labels, dirt or any other substance from the glass surfaces of the insulating glass unit. This warranty is in lieu of and excludes any and all other warranties, express or implied, including merchantability and fitness for a particular purpose. No warranties of any kind, whether express or implied, are given with respect to any products sold outside the continental U.S.A. or sold for export or exported from U.S.A. and all such products are sold as is. This warranty cannot be modified in any respect by an employee, dealer, agent or representative of GGI.
