

Oct. 2017
Rev. 2

Approved Back-Painting and Clear Mirror Adhesives

CRL: Industrial and Construction RTV Silicone
Cat. No. RTV408
Color - Clear

Dow Corning:
995 Silicone Structural Sealant
Color – Black, White, or Grey

Dow Corning:
795 Silicone Building Sealant
Color - Adobe Tan, Black, Blue Spruce, Bronze, Champagne, Charcoal, Custom, Dusty Rose, Gray, Ivy Green, Limestone, Natural Stone, Rustic Brick, Sandstone, White

Gunther Premier Plus Mirror-Mastic:
LEED Compliant & Ultra Low VOC
Color - Grey

Palmer Products:
Palmer Mirro-Mastic
Color – Black

Other silicones may work they just have not been tested or approved by GGI

GGI recommends:

1. Painting all walls that the back painted glass would be applied to a close match to the color of the back painted glass.
2. Matching the color of Silicone or Mastic with the color of the back paint or using clear.
3. Priming the substrate with Gunther Prime-N-Seal (or similar product.)

Sincerely,

Ed Rohlf Jr.
Technical Manager
